Art Unit: 2665

DETAILED ACTION

Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-29, drawn to a method, system and program for determining a settlement agreement between network service providers, classified in class 370, subclass 395.21.
 - II. Claim 30, drawn to a data structure for storing settlement information, classified in class 707, subclass 1.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the details of specific fields of information, such as an account field, rate field, and an interconnection record. The subcombination has separate utility such as a database.

Application/Control Number: 09/670,365

Art Unit: 2665

3.

Because these inventions are distinct for the reasons given above and have acquired a

Page 3

separate status in the art because of their recognized divergent subject matter, restriction for

examination purposes as indicated is proper.

Conclusion

4. Any inquiry concerning this communication, or earlier communications from the

examiner should be directed to Thomas Volper whose telephone number is (571) 272-3151. The

examiner can normally be reached between 8:30am and 5:00pm M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Huy Vu, can be reached at (571) 272-3155. Any inquiry of a general nature or

relating to the status of this application or proceeding should be directed to the receptionist

whose telephone number is (571) 272-2600.
